## Southbound RV Return

After you have taken in the scenery on the ALCAN and enjoyed the beauty of Alaska, do you really want to drive all the way back to the Lower 48? Wouldn't it be great if you could fly or cruise back to the Lower 48 while TOTE transports your vehicle for you? Well, you can **take the shortcut home with TOTE!**

The twice-weekly departures of Totem Ocean Trailer Express' drive-on, drive-off vessels will safely transport your RV to Tacoma while your vacation continues in a way that won't put miles or wear and tear on your precious asset.

## It's Easy and Affordable!

When you bring your RV to TOTE's terminal, it is immediately assigned to a secured area for inspection and recording of its condition. It will not be moved again until the vessel is ready for loading.

With TOTE's drive-on/drive-off cargo ship, your RV is driven aboard to a protected stow position and is professionally secured. Upon arrival at the Port of Tacoma, Washington, your RV is driven off the ship to a secured receiving area and held safely for your arrival.

It's easy! Just bring your RV to our receiving area in Anchorage, give us the keys, and we will do the rest.

*Sorry, we don't transport people, only your RV!*
